Frontend Developer

April 2021 - Now

JavaScript VueJS/NuxtJS NodeJS Vuex/Pinia Vuetify/Quasar Bootstrap/Tailwind

- Developed and enhanced CMS platforms for creating hybrid mobile applications, focusing on optimizing functionality and performance.
- Built a web platform for resource management (similar to Pinterest), enabling the buying and selling of media assets, specialized for media companies.
- Created and maintained a video transcription application using Vue.js, continuously improving it based on user feedback.
- Implemented real-time communication features in web applications using WebSocket, increasing user engagement.
- Developed and optimized e-commerce applications with a focus on responsiveness and loading speed.
- Collaborated closely with backend and UX/UI teams to integrate REST APIs and implement design solutions, ensuring efficient data exchange and consistency between technical and visual aspects of applications.
- Developed server-side applications using Node.js and Nuxt.js, creating scalable systems for web platforms, including SSR and API routes for data management.
- Participated in project planning, task definition, and delegation to meet deadlines and priorities effectively.
- Worked on optimization, SEO strategies, and improving the speed of web applications and websites.
- Developed over 30 hybrid mobile applications with specific features such as match results, player profiles, and league tables tailored to client needs.

The Social Formula - Marketing Agency

📍 Beograd, Srbija

Frontend Developer

June 2020 - April 2021

HTML/CSS JavaScript VueJS WebSocket Bootstrap Figma

- Collaborated with a Senior Developer to build a digital marketing application using Vue.js.
- Integrated external APIs to fetch and display real-time data, ensuring dynamic content updates and enhancing the overall functionality of the application.
- Focused on implementing responsive design and optimizing application performance.
- Worked closely with the designer to ensure seamless integration of UI/UX elements.

ComTrade Group

📍 Beograd, Srbija

Intership - Web designer

May 2019 - July 2019

HTML/CSS Bootstrap JavaScript JQuery Figma

- Sketched the visual design of the user interface using Figma
- Implemented interactive elements and animations with JS and jQuery to enhance the user experience.
- Optimized the website's visual and functional aspects using HTML, CSS, and JavaScript, ensuring high interactivity and alignment with the original design prototypes

Projects

SmartAi
